

Your Discord data package is ready!

Discord <noreply@discordapp.com>
To: your-email@domain.com

01 January 1970 at 00:00

Hey [Username],

Our privacy hamsters are happy to announce that your data package is ready for pickup! (In case you forgot, you requested this special delivery on 1970-01-01)

Inside, you'll find a few JSON and CSV files of the data we use to provide Discord's service to you. Here's a quick overview of what's in the box:

- **Your Account:** Your friends lists, settings, username, email, avatar, and any transaction history for Nitro.
- **Your Servers:** Servers you've joined. If you own a server, it will also include that server's icon, settings, roles, permissions, audit log, and any custom emoji attached to it.
- **Your Messages:** All messages you have sent in servers, group DMs or DMs, unless its been deleted manually by you or someone else.
- **Your Activity:** Info about how you navigate the app, the times you used our app, what games you played, and what servers you hung out in. We use this to improve Discord and tailor it to you.

We know these data dumps can be confusing, so [check out our help article](#) for the complete breakdown. If you have further questions you can reach us at privacy@discordapp.com.

Before we go, remember that this data is your private information - keep it safe. Discord keeps your data locked up tight and does not sell it to any third parties.

Appreciate ya,
The Discord Team

PS: Your package download is valid until 1970-01-01.

PPS: Anyone with the link can download your data. Do not forward this email to anyone! Not even your mom!!!

You can download it here.
